Appointments

We always try to see patients at the appointed time. If you are kept waiting, there is normally a good reason. If you need to cancel an appointment, we require, whenever possible, 48 hours' notice, so that we can make alternative arrangements — for example, to see someone in pain. There may be a charge for broken appointments.

Emergency and Out-of-Hours Care

Emergency appointments from 6:30pm onwards on Wednesday, Thursday and Friday, and on Saturdays where required, are available to registered patients only. If you are a non-registered patient experiencing a dental emergency during these times, please telephone the practice on 01248 370054 to check whether an appointment is available.

Emergency dental appointments during normal opening hours (Monday and Tuesday, 9:00am – 5:00pm) are available to both registered and non-registered patients, with priority given to registered patients.

We provide emergency treatment for trauma, cracked teeth, lost or loose fillings, broken, chipped or decayed teeth, swelling and dental infection, infected wisdom teeth, extreme toothache, gum infection and sore gums, among other conditions. Please call 01248 370054 and we will find the earliest available appointment.

Referrals

We accept referrals from general dentists for endodontic and other treatment. We also refer patients to other professionals for specialist care and advice where it is in the patient's best interest, always with the patient's consent.
